

Healthcare Interoperability Partner™

KaMMCO HEALTH SOLUTIONS^{INC.}

CONNECT

KaMMCO Health Solutions, Inc. partners with healthcare providers, IDNs, IPAs, ACOs, payers, and others to plan and build the infrastructure necessary for a sustainable health information exchange.

ANALYZE

KaMMCO Health Solutions, Inc. offers analytic reporting services required for clinical integration, care coordination, quality reporting, and value-based payment structures.

TRANSFORM

KaMMCO Health Solutions, Inc. partners with organizations in healthcare transformation, interoperability, and the use of patient data to facilitate research and improve patient outcomes across the nation.

Healthcare Interoperability Partner™

“Providing actionable intelligence to providers is crucial to clinical integration and the transition to value-based payment models. Having the right information at the right time will improve patient care, improve quality, and lower malpractice risk.”

*Kurt Scott
KaMMCO Health Solutions, Inc.

KaMMCO Health Solutions, Inc. partners with health care providers, integrated delivery networks, independent practice associations, accountable care organizations, health plans, and others who face the challenges of the new health care marketplace and value-based payment structures. The data sharing and data analytics division is led by Senior Vice President, Laura McCrary, Ed.D. Dr. McCrary also serves as Executive Director of the Kansas Health Information Network (KHIN). KHIN is renowned as one of the largest, most successful HIEs in the country.

KaMMCO Health Solutions, Inc. is an organization with a board comprised of physician and hospital leaders. This provider-led approach, combined with the expertise and experience of Dr. McCrary and her staff, positions KaMMCO Health Solutions, Inc. to serve as a guiding influence for organizations who seek a partner in the planning and building of the infrastructure necessary for data sharing. The healthcare interoperability partner also offers analytic reporting services required for clinical integration, care coordination, quality reporting, and value-based payment structures.

The KaMMCO business and reinvestment model, when woven together with the expertise, experience, and success of the KHIN, creates a unique opportunity for KaMMCO Health Solutions, Inc. to partner in healthcare transformation, interoperability, and the use of patient data to facilitate research and improve patient outcomes across the nation.

As has often been said, the hardest step is the first step. As your organization prepares to take the first step in planning and building a sustainable data sharing network for your health care community, call KaMMCO Health Solutions, Inc. to take that step with you.
